The UK's leading independent group of psychometric practitioners

is delighted to announce

The Psychometrics Forum's
Excellence in Psychometrics Award 2021

The Psychometrics Forum is committed to supporting and acknowledging evidence-based practice in Psychometrics. Part of our commitment is to sponsor the **Excellence in Psychometrics Award.** This award recognizes original, useful and validated projects conducted by psychometric practitioners and/or academics.

The Award will be announced in early November, with a virtual presentation being made to the overall winner at our online New Frontiers event on Wednesday 24th November 2021.

The winner will receive The Psychometrics Forum **'Certificate of Excellence Award in Psychometrics'** and a free delegate place at the above online TPF New Frontiers event, at which there will be the opportunity to present your poster to peers over 10 minutes - which will subsequently feature on our Forum website.

The deadline for entry is **Friday, 22nd October 2021.**

Entry requirements
The subject matter of submissions must have taken place within the 3 years preceding the submission deadline and be linked in some way to Psychometrics (i.e. assessment of personality, abilities, motives, values, attitudes or other measures of individual psychological differences). A panel of industry experts will judge submissions, with contributions being welcomed from all fields within the psychometric community.

Poster Submissions via e-mail
Nominees are required to submit an A4 Poster as a pdf document via email plus, an explanatory abstract attachment. In our experience the most helpful of these are 2-page A4 narratives.

Deadline and address for submission
Submissions will be accepted up to and including Friday, 22nd October 2021.
Submissions via e-mail to TPF committee member Nicholas Bennett:
nicholas@ledborough-associates.co.uk

Background to the Award
The Forum is the leading group of independent practitioners in the UK with a steadily growing membership and a well-established LinkedIn presence connecting over 6300 colleagues from around the world. The objectives of The Forum are to broaden and

deepen understanding of the nature and structure of cognitive ability and temperamental aspects of personality, to promote more effective measurement of personality and/or cognitive ability and to promote best practice use of psychometrics.

The aims of the Excellence in Psychometrics Award are to recognize and celebrate excellence in the enhancement of knowledge and applied skills in the field of Psychometrics. The Award will validate the quality of successful submissions and provide a platform from which to showcase to the wider psychometrics community.

The Award
The winner will receive The Psychometrics Forum Excellence in Psychometrics award to be presented online at an awards ceremony on Wednesday 24th November 2020, normally during or following our annual New Frontiers event.

The winner of the award will receive:

- Free entry to the preceding New Frontiers online event.
- Free entry to one online Forum event of their choosing in 2022.
- During 2022 the winner will also be entitled to take advantage of any reduced-rate training offered to TPF members (subject to training pre-requisites).
- Have the opportunity to make a 10-minute poster presentation to those attending the 24th November event.
- The poster produced by the winner will be showcased on the Forum's website as well as being shared with our exclusive TPF LinkedIn group.

If you would like additional information on the poster format or submission details, please contact: nicholas@ledborough-associates.co.uk
